What does the Environmental Trends in Health Care workshop offer?

This workshop will help health care professionals incorporate environmental considerations into day-to-day operations. Participants will learn about environmental trends affecting health care and about solutions that can help minimize environmental impacts, save money and maintain – and even enhance – high standards of patient care.

Who should attend?

This workshop will be beneficial for all health care professionals, students, and service providers, especially:

- Clinics, doctors' offices, hospitals, veterinary clinics
- Health care facilities managers
- Environmental services managers
- Hospital administrators
- Nursing managers
- Purchasing officers
- Environmental services providers

Printed on Recycled Paper
